

# THE MIDNIGHT QUILT SHOW

Brought to you by *Craftsy*

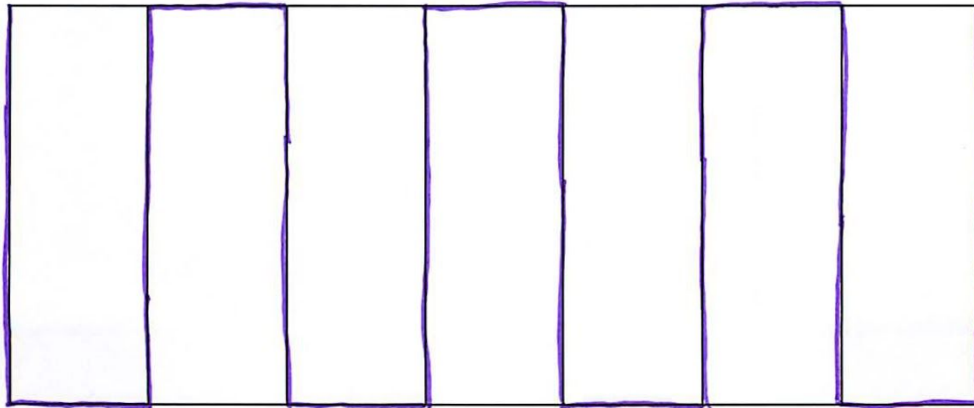

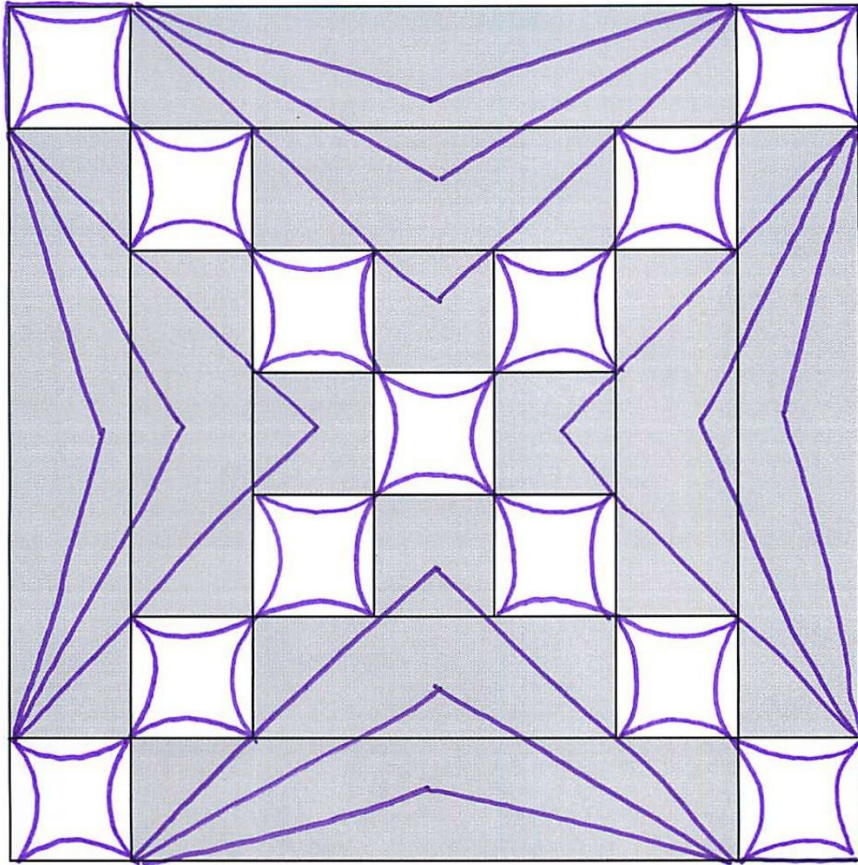

## Fruit Slices Quilt

Fruit Slices Quilt Kit, designed by Monique Dillard  
Featuring Boundless Blenders Botanical, available exclusively at [Craftsy.com](https://www.craftsy.com)

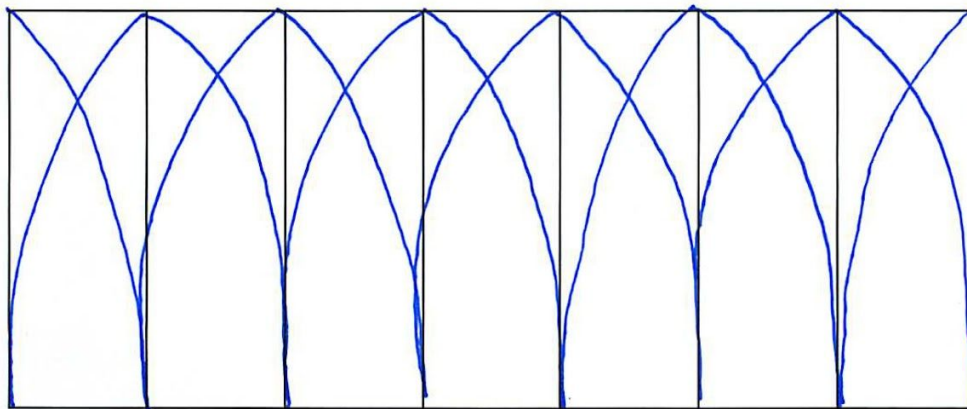

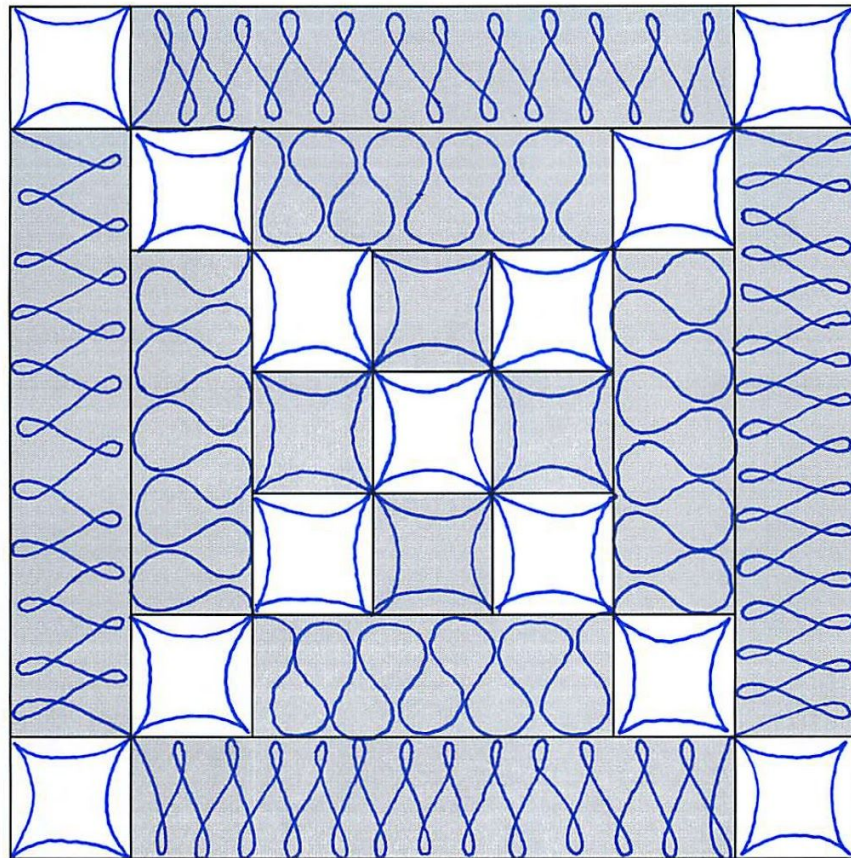

## Quilting Diagrams

**Turn In Early:** Using the corners of the blocks as a guide is an easy way to quilt quickly without marking! You can add as many lines as you'd like, depending on how much you love the person you are quilting it for. Stitching in the seams of the pieced border is an easy way to finish up.

## Quilting Diagrams

**Up All Night:** Alternating between two different designs is a fun way to add texture to your quilt. For this quilt, I chose the wishbone and ribbon candy designs. In the squares, I opted for the continuous curve designs. Big surprise, right? I use it a lot because it is so versatile. I kept the quilting in the borders simple by quilting arcs in the strips.
