TIPS FOR SUCCESS

- 1. WATCH THE EPISODE!**
See how Angela pieces and quilts these designs as she works her way through the quilt. Go to youtube.com/midnightquiltshow and search for Santorini.
- 2. GET THE DIAGRAMS**
See the next few pages for Angela's sketched quilting designs. These are a great starting point for quilting ideas— whether you want to Turn In Early with something simpler, or stay Up All Night with more free-motion fun.
- 3. GET YOUR MACHINE READY**
Prepare for quilting success by ensuring that your machine needle is sharp. Are you experiencing breakage of your top thread, or skipped stitches? Do you hear a quiet popping sound when your needles move through the fabric? These are all signs that your needle is dull and it's time for a change.

TURN IN EARLY

Quilting Diagram

After piecing a quilt as big as Santorini, it can be nice to use your walking foot to do some straight-line quilting. Especially since the angles of the piecing can be used as a guide for your quilting. That means no marking, just quilting!

UP ALL NIGHT

Quilting Diagram

Spending just a little extra time on the quilting can make the negative space on the quilt pattern shine! Within the blocks, alternating between a continuous curve design and an angled "V" helps play up white and blues in the quilt pattern. In the long white strips, try a filler such as overlapping ribbon candy. Once you get the hang of it, you might find that it's quicker to quilt than you think!
