HAPPY MAKING!

TIPS FOR SUCCESS

- 1. WATCH THE EPISODE!**
See how Angela pieces and quilts these designs as she works her way through the quilt. Go to youtube.com/midnightquiltshow and search for Rising Star.
- 2. GET THE DIAGRAMS**
See the next few pages for Angela's sketched quilting designs. These are a great starting point for quilting ideas— whether you want to Turn In Early with something simpler, or stay Up All Night with more free-motion fun.
- 3. GET YOUR MACHINE READY**
Prepare for quilting success by ensuring that your machine needle is sharp. Are you experiencing breakage of your top thread, or skipped stitches? Do you hear a quiet popping sound when your needles move through the fabric? These are all signs that your needle is dull and it's time for a change.

TURN IN EARLY

Quilting Diagram

The beautiful, bold batiks shine all on their own! Quilting some gentle wavy lines will mimic the illusion of movement from the piecing, without being too complicated. You can use your free-motion quilting foot or your walking foot; whichever you prefer!

UP ALL NIGHT

Quilting Diagram

The plume feather is an excellent design for filling in the pointy diamond shapes where the blocks come together. Extending the individual "ferns" of the feather to the edge of the area will help the designs fill the space completely. Save a little time (and quilting stress) by using variations of continuous curve in the other areas of the blocks.
