TIPS FOR SUCCESS

- 1. WATCH THE EPISODE!**
See how Angela pieces and quilts these designs as she works her way through the quilt. Go to youtube.com/midnightquiltshow and search for Star Power.
- 2. GET THE DIAGRAMS**
See the next few pages for Angela's sketched quilting designs. These are a great starting point for quilting ideas— whether you want to Turn In Early with something simpler, or stay Up All Night with more free-motion fun.
- 3. GET YOUR MACHINE READY**
Prepare for quilting success by ensuring that your machine needle is sharp. Are you experiencing breakage of your top thread, or skipped stitches? Do you hear a quiet popping sound when your needles move through the fabric? These are all signs that your needle is dull and it's time for a change.

TURN IN EARLY

Quilting Diagram

The batik fabrics in this quilt are so bright and bold that any all-over quilting design will look great. I opted for a leafy meander since it fit the background print. It's also a great way to quickly work around your quilt. With this, as with any design, the trick is to use echoing to fill in any gaps in the design.

UP ALL NIGHT

Quilting Diagram

When working on quilts with triangles and squares, I usually resort to my go-to machine quilting technique, dot-to-dot quilting. It allows me to quilt intricate-looking designs with no marking! Try quilting wedges in the larger triangles and experiment with different continuous curve designs in the four-patch blocks.
